

Value-added services help innovative products work even better.

Making the world's most innovative plexus nerve blocks isn't enough. We want to make sure you and your staff have every thing you need to deliver the best healthcare possible. That's why B. Braun has developed a range of service and support materials that's unmatched in the industry. Our toll-free RN Customer Relations line handles nurse's questions about product use. An in-service training program provides seminars for your staff to better understand our products and demonstrates ways to administer better, more cost-effective care. Plus it's all supported by a vast array of posters, articles, videos, and slide presentations designed to keep your staff informed on the latest research and techniques.

For more information on how B. Braun can help you and your staff provide the best care possible, call 1-800-BBRAUN2.
